Got Productivity & Performance Issues that you can't put your finger on ?

Tima is offering a Manufacturing Productivity & Performance Review and Management Service. This is a focused process driven set of reviews providing insights impacting Manufacturing Process, Productivity & Performance.

Our globally seasoned executives who are GM's, Manufacturing Managers, Factory Managers, Production Managers, NPD, CI, Engineering, Supply Chain, Marketing, Sales, IT & CFO's to solve your Manufacturing Process, Productivity & Performance issues in;

- Production, NPD, CI Engineering
- Supply Chain, Logistics and Warehousing (including Inventory Management)
- Business Services – Sales and Marketing, CFO, IT
- Management and Employee Engagement

Our Manufacturing Process, Productivity & Performance Review entails reviewing all aspects of the manufacturing process including supply chain and it's people, to ensure that whatever the products that the company is manufacturing is at optimal productivity, that they have the right people, the right strategy and the right tools to perform and through our extensive experience and networks we will assist with rectifying the identified needs.

What you get

- ***Review of performance & key data***
- ***A Proposed Strategy for improved Productivity***
- ***Ongoing support for Frontline Managers & Owners***
